

Tutorial 4

Connection to Teams: underage students

Connecting your child to their online class

MS Teams is a secure platform used by governments, schools and major universities. It's user friendly and fun to use!

You will receive an invitation to Teams, from the teacher with the date and time of your child's online class!

Connecting your child to their online class

We have designed a short tutorial to guide you through

Connecting your child to their online class

We have designed a short tutorial to guide you through

<https://bit.ly/3PjtQNq>

We encourage you to download the application Microsoft Teams, it's free, secure and allows you to receive notifications from the teacher.

Connecting your child to their online class

A few minutes before your child's class is scheduled to start, don't forget to help your child to connect to their online class:-go back to the email invitation sent by the teacher and click on the link again, it will take you to Teams.

For more guidance on your child's online class please read the tutorial we have designed for you.

Connecting your child to their online class: useful tips

- Check your email regularly and help your child to connect to their online class.
- Activate your webcam and use a headset to avoid undesirable echoes and noise effects.
- Keep your child safe: Monitor your child during their online class and your child's Internet usage <https://saferinternet.org.uk/guide-and-resource/parents-and-carers>
- Allow your child to take off screen breaks as required. We look forward to seeing you soon in our virtual classroom!
