About the MAGNETIC programme

Magnetic is a network of ten artists' residencies in France and the UK created in 2022 under the umbrella of Fluxus Art Projects. This project is the result of a new collaboration between the Institut français du Royaume-Uni and the British arts funding agencies, the three Arts Councils of England, Wales and Northern Ireland, and Creative Scotland for Scotland, joined by the Institut français Paris, the Ministry of Culture and the British Council.

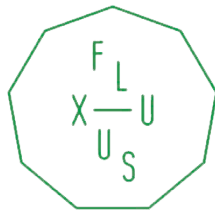

Highlights of the **Magnetic** programme :

- A structuring and long-term cooperation
- The choice of artist residencies within decentralised artistic institutions that share common values and commitments
- Societal and environmental issues at the heart of the residencies: artists will work in the specific context of each residency -geographical, historical, societal or artistic
- For each artist, a minimum threshold monthly fee of 2500 € / 2100 £ for a 2-3 month residency, curatorial mentoring, accommodation and access to a studio
- Custom-made residencies in consultation with the institutions' curatorial teams. This will allow the artists to establish meaningful interactions with a broad network throughout their stay.

About FLUXUS ART PROJECTS

Fluxus Art Projects is a no-profit organization established in 2010 and run by Institut français du Royaume-Uni which aims to support contemporary art on both sides of the Channel. A public-private Franco-UK fund, Fluxus Art Projects has become, over 14 years, a tremendous accelerator of talent, a prescriptive mechanism, and a marker of renown for artists. Fluxus builds a bridge between the French and British art scenes by focusing on three objectives :

- Supporting venues for solo and group exhibitions of French-based artists in the UK and vice versa, to help them gain international visibility
- Accompanying curators on research trips to France and the UK
- Encouraging artistic cooperation between the British and French visual arts scenes.
